

## BUILDABLE BUCKY ASSEMBLY

# instructions

### MATERIALS YOU WILL NEED\*

- Glue (Elmers)
- Hobby Knife
- Spray Mount\*
- Your Ritalin\*
- Piece of Stiff Paper
- Ruler
- Cutting surface\* (your lap will suffice)

### PART 1 - General Instructions

The enterprising hobbyist can attempt the project without reading the detailed instructions that follow, but he/she would be well advised to read and understand the following figure before any such attempt.

**FOLD LINES** - Score (using a ruler and the dull edge of your knife)

**CUT LINE** - Cut (using your ruler and hobby knife or scissors)

**SLOT LINE** - Cut and twist your your hobby knife to splay slot

**JOINT TAB** - Fold but do not glue, insert in proper slot

**GLUE TAB** - Fold and glue and hold in place until glue sets

The different Line Types and Flaps and what to do with them.

### PRELIMINARY STEPS IN THE CONSTRUCTION OF YOUR PAPER MODEL

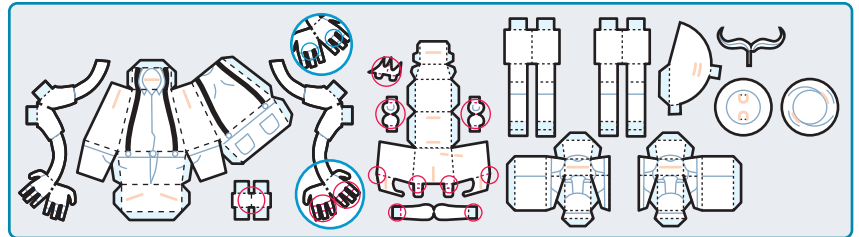

**STEP 1** - Mount your comics (parts 1 and 2) to a piece of heavyweight paper using your glue, or preferably a can of Spray Mount. Any heavy-weight paper will do, but stiff yet thin paper works best.

**STEP 2** - Using your hobby knife and ruler, score all of the dashed lines on all of the pieces, taking particular care not to score too hard at the points shown below with **RED CIRCLES**, as they tear easily.

**STEP 3** - Using your hobby knife, cut all of the slot lines and spread the slots open by twisting your knife.

**STEP 4** - Cut out all the pieces taking special care at the points shown below with the **BLUE CIRCLES**.

Areas that require special care while scoring and cutting so that the pieces do not tear.

### PART 2 - The Head

Come on, you're a big boy/girl, figure it out, or live dangerously and build it without instructions.

### BE CAREFUL WHEN SCORING THE CHEEKS AND THE TEETH

Don't Fret Freddy Fretter, the STEPS TO FOLLOW will come later, check back often.

\* denotes an optional component that the instructions are written as if you have it/them, deal with it.
